Key Business Risks

- **Profitability & Margin Pressure**
Despite scale, profitability remains fragile — food delivery margins are thin and quick commerce is largely loss-making
- **Gig Worker Regulation & Labour Compliance**
In the industry, labour laws is the fastest moving regulatory risk which shape upcoming decisions for the industry
- **Competitive Intensity & New Entrants**
New entrants and overlapping quick-commerce operations are eroding the duopoly's stability, forcing incumbents to compete on speed, infrastructure, and resource allocation

Industry Highlights

Market is large and still growing, but growth estimates vary by source

The Zomato-Swiggy duopoly holds in food delivery specifically, with Zomato ahead on both scale and growth

Profitability divergence signals the industry has shifted from growth-at-all-costs to unit economics discipline

Structural risks remain — margin pressure, regulation, and partner relations
